FIRST LABO 2 Laboratory taps

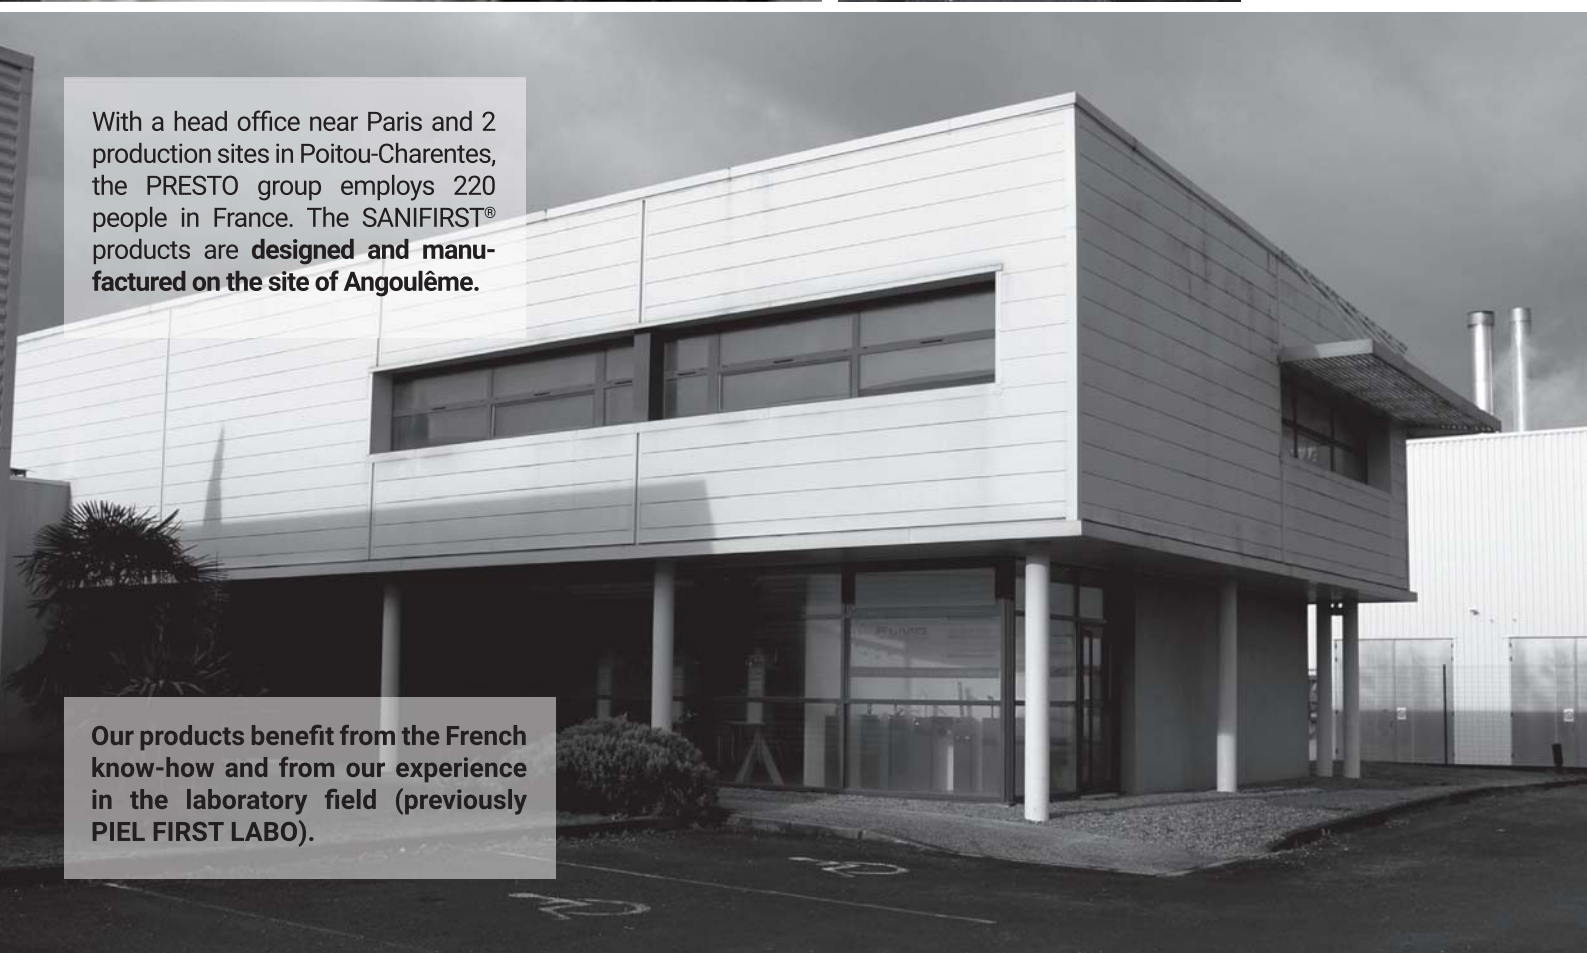

**MADE IN
FRANCE**

With a head office near Paris and 2 production sites in Poitou-Charentes, the PRESTO group employs 220 people in France. The SANIFIRST® products are **designed and manufactured on the site of Angoulême.**

Our products benefit from the French know-how and from our experience in the laboratory field (previously PIEL FIRST LABO).

PRESTO Group is a major player on the tapware market for commercial, public places, and healthcare, since 1927.

SANIFIRST® joined the PRESTO Group in 2013 and is the brand specialised in healthcare facilities and laboratories.

FIRST LABO® includes a wide range of laboratory taps, of connectors, pipes and accessories designed for no-pressure transport and drainage of corrosive liquids.

FIRST LABO 2

NEW RANGE OF LABORATORY TAPWARE

BENEFITS

Thickness of spout:
20 mm diameter for all the spouts

Available:
with fixed nozzle or removable nozzle

New ergonomic knob:
with standard EN13792
marking

KEY BENEFITS

- Marking compliant to EN 13792 norm.
- The RILSAN coating of our tapware has many advantages:
 - > **Corrosion resistance**
 - > **Shock resistance superior to other processes (layer thickness)**
 - > **Smooth surface, limits the deposits**
- Polypropylene tapware for particularly acidic or basic fluids, and demineralised or osmosed water:
 - > **Exceptional resistance to external aggressions of chemicals**
- All threaded ends (except on mixer taps) are designed to receive a steel claw washer (unique patented system):
 - > **It prevents the tapware from rotating**
- The telescopic rods fitted with a ball joint:
 - > **Support the tapware alignment** differences relative to the controls on the backsplash

Bending:
aesthetics and modern

White body:
purity and hygiene

Swivel spouts:
with locking screw

New base:
for a better impermeability
of the bowl
